Pulverlakering fås i farverne:

Arctic White, Beige, Bronze, Dark Grey, Federation Green, Matt Black, Olive Green, Primrose and Silver Star.

Hunza Inground Transformers er "dobbeltisolerede sikkerhedsisolerende" transformere og er egnet til at blive nedgravet helt. Hunza og "LI" Inground Transformers er IP67-beskyttede og omfattet af en 5-ÅRIG UDSKIFTNINGSGARANTI. Alle armaturer leveres med en europæisk 4.000 timers kvalitetspære. Duebjerg kan ikke gøres ansvarlig for beskadigelse af pærer under transport. Som følge af varierende installationskvalitet er garantikrav begrænset til udskiftning eller reparation efter Duebjergs eget skøn. Fatninger er forbrugsprodukter. I forhold til 20 W pærer forkorter 50 W pærer fatningens levetid væsentligt, især i rustfrie armaturer og i mindre grad i kobberarmaturer. Fatningen skal derfor udskiftes med jævne mellemrum.

Der tages forbehold for prisændringer og trykfejl.
